

## Change in AACR2 rule 21.30J

In the 2003 update to AACR2, rule 21.30J1 has been changed to read:

**“21.30J1. Title proper.** Make an added entry under the title proper of every item entered under a personal heading, a corporate heading, or a uniform title. *Optionally*, make such added entries in accordance with the policy of the cataloguing agency.

If considered necessary for access, make an added entry in the following situations:

- a) any changed title proper of a serial that is not a major change (see 21.2A2)
- b) the title proper of an earlier iteration of an integrating resource (see 21.2C)
- c) the earlier/later title proper of a multipart monograph (see 21.2B2).”

**(Implementation:** The AACR2 2003 update is scheduled for mid-summer publication. LC intends to implement it on September 1, 2003.)

## LCRI 21.30J

LC proposes to follow the rule as written. The portion of LCRI 21.30J on the basic guideline for making title added entries for titles proper would be changed to read:

### **“Basic Guideline for Making Title Added Entries for Titles Proper**

Follow the provisions of the rule to:

Make an added entry under the title proper of every item entered under a personal heading, a corporate heading, or a uniform title.

If considered necessary for access, make an added entry in the following situations:

- a) any changed title proper of a serial that is not a major change (see 21.2A2)
- b) the title proper of an earlier iteration of an integrating resource (see 21.2C)
- c) the earlier/later title proper of a multipart monograph (see 21.2B2).

Note that there are no conditions to be covered by the optional provision of the rule. These provisions become effective September 1, 2003. *LC practice:* Catalogers may change the field from 245 00 to 245 10 only when updating a record for another reason.

Note also: Prior to Dec. 1, 2002, the LC/CONSER practice was not to make a title added entry for a serial title consisting of no more than the English words ‘Annual report.’ Catalogers may change the field from 245 00 to 245 10 only when updating the record for another reason.”
